About Haohua

We are a spirit level factory in Linyi, Shandong, China. Everything in this catalogue is made in our own plant — we are not a trading company passing your order on. Key plastic parts, including the vials, are injection moulded in our own workshop, on our own machines, from raw pellets.

We supply importers, wholesalers, retail chains and regional distributors, most of them selling under their own brand.

Why buyers work with us

- Magnets come as standard on our spirit levels, torpedo levels and cast aluminium levels — there is nothing to pay extra for.
- MOQ from 20 cartons per model, and you can mix models in one order.
- Carton sizes, pieces per carton, gross weights and container loading figures are published, not held back.
- Any body colour, UV-printed logo and your own packaging.
- SGS, BV or your own QC team are welcome at the factory before shipment.

Magnetic Spirit Levels

Box-section aluminium levels from 30 cm to 100 cm in seven models. Magnets are standard on every model except the 96 basic model. Longer lengths are available up to 250 cm — ask us for the sizes you need.

Model 985 with magnets fitted as standard

Models and carton quantities

Model	30 cm	40 cm	50 cm	60 cm	80 cm	100 cm
983	60	50	50	30	30	30
985	60	50	50	30	30	30
2006	120	60	60	60	60	60
2000	120	60	60	60	60	60
2005	60	60	60	60	60	60
95C	60	60	60	60	60	60
96	60	60	60	60	60	60

Figures are pieces per carton. MOQ is 20 cartons per model.

Cast Aluminium Levels

Cast aluminium bodies with magnets as standard, in six sizes. The heavier option — for buyers who want a level that feels and behaves like a professional tool. A cast frame is solid and thicker-walled, so it does not flex the way a thin extruded frame can.

Cast aluminium spirit level

Sizes, carton data and loading

Size	Pcs / Carton	Carton (cm)	Gross Weight	20GP (cartons)	40HQ (cartons)
30 cm	60	31 × 25 × 31.5	20.5 kg	1,197	1,260
40 cm	60	41 × 25 × 31.5	25 kg	882	1,040
50 cm	30	51 × 25 × 16.5	14.5 kg	1,386	1,790
60 cm	30	61 × 25 × 16.5	18.5 kg	1,134	1,400
80 cm	30	81 × 25 × 16.5	25.5 kg	882	1,010
100 cm	30	101 × 25 × 16.5	28.5 kg	644	910

Heavy models are limited by weight, not volume — we confirm the loading plan with every quote.

Magnetic Torpedo Levels

Cast aluminium torpedo levels with magnets as standard — the tool electricians, plumbers and framing crews reach for. A 45° vial is included for pipe runs and offsets.

Torpedo 2 magnetic torpedo level

Models and carton data

Model	Packing	Pcs / Carton	MOQ (Pcs)	Carton (cm)	Gross Weight
Torpedo 3	Bulk	200	4,000	48 × 25 × 41	16.5 kg
Torpedo 3	Bulk	300	6,000	48 × 50 × 22	24 kg
Torpedo 3	Blister card	120	2,400	51 × 38 × 31	13 kg
Torpedo 3	Blister card	240	4,800	51 × 38 × 61	27 kg

Plumb Bobs

200 g to 500 g in two body types, including a magnetic version that holds onto steelwork on its own. Available with a 3 m or 6 m line.

Weight	Pcs / Carton	MOQ (Pcs)	Carton (cm)	Gross Weight
200 g	120	2,400	53 × 33 × 37	25 kg
300 g	60	1,200	39 × 30 × 32	19.5 kg
400 g	60	1,200	53 × 22 × 39	25.5 kg
500 g	60	1,200	53 × 22 × 43	31 kg

Packing Options

Bulk

Levels packed loose in the carton. Lowest cost per piece — right for wholesalers who repack.

Blister card

Retail-ready card backing, hangs on a peg. Right for DIY chains.

Colour box

Printed box with your artwork. Best shelf presence, highest cost per piece.

Carton sizes change with the packing you choose, so we confirm them with each quote.

OEM and Private Label

Private label from 20 cartons per model. Any colour, UV-printed logos, your own packaging.

What we can change

- Body colour — any colour. A sample or a colour reference is enough.
- Logo — UV printed. Send your artwork and we will tell you how it reproduces on the body.
- Packaging — bulk, blister card or colour box.
- Carton — your own print and shipping marks.

The numbers

- MOQ — 20 cartons per model, roughly 600–2,400 pieces depending on the size.
- Mixed models — yes, in one order.
- Samples — usually one to two weeks once artwork and colour are confirmed. The sample charge comes off the bulk order.
- Tooling — quoted per project where new tooling is needed, and it belongs to you.

Quality Control

- Incoming material is checked before it reaches the line.
- The line is checked as it runs.
- Every batch gets a final check on appearance, vial alignment, magnet strength, print clarity, packing and carton count before it ships.
- Key plastic parts, including vials, are moulded in our own workshop.

SGS, BV or your own QC team are welcome at the factory. The inspection happens before shipment and the report comes from the third party, not from us.

Contact

Tell us the models, sizes and quantities you have in mind, and we will come back with pricing, carton details and lead time.
